Industrial Engineer in the Electricity specialized in Electronics and Information Technology

### Secondary

**Period:** 1992 - 1994

**School:** Sint-Lievenscollege Gent

**Educaion:** Hoger Secundair Onderwijs (Wetenschappelijke A)

## Experience

### Kimé Consult (Freelance)

**Period:** 18/04/2013 - current

**Function:** Freelance .NET/BizTalk consultant

**Projects/Clients:**

- Sibelga (1/1/2015 - current):

**Role:** BizTalk/.NET Consultant

**Tasks:** Design and develop BizTalk applications to integrate between the different backend systems (SalesForce, EIServer, SAP...) and the new Central Market System (Atrias)

**Tools:** Visual Studio 2013/2017, BizTalk 2013 R2, Windows Server 2012 R2/2016, SQL Server 2012/2016, Enterprise Architect, XML Spy

**Technologies:** .NET 4.x, C#, WCF, ASP.NET Web api

- Bingoal Kiosk Project (2015 - current):

**Task:** Design, develop and maintain a kiosk application for sports betting.

**Description:** A fullscreen WPF application with browser control that communicates with several external peripherals (Barcodescanner, Bill validator, Coin Validator and Barcode ticket printer). The browsers display the webapplication served from the backend. Backend and WPF client communicate with each other via SOAP and REST through VPN

**Technologies:** .NET 4.5.2, C#, WPF, ASP.NET Web API, Owin selfhosting, Windows 8.1 Embedded with Shell Launcher/Windows 10

- Partena (01/05/2013 - 30/ 09/2014):

**Role:** BizTalk/.NET Consultant

**Tasks:** Design and develop BizTalk applications (10%). Develop WCF backend services for the Apollo project (90%)

**Tools:** Visual Studio 2010, BizTalk 2010, SQL Server 2008, Enterprise Architect

- Shopister (03/2014 – 05/2016) - discontinued:

**Task:** Design, develop and maintain backend implementation of an online shopping platform.

**Description:** Online shopping in your neighbourhood. Shopister was an online shopping platform where shops can connect their POS systems to place their stock online. Users could easily search the disired articles depending on various search criteria

**Technologies:** .NET 4.5.2, C#, ASP.NET Web API, Hosted on Azure

## I8C (Cronos)

**Period:** 01/09/2008 - 01/05/2013

**Function:** Senior Integration Architect/Consultant

**Tasks:** Consultancy, design and development of Business Integration Solutions

**Projects/Clients:**

- ACV-CSC (10/2008 - 01/05/2013):

Developing BizTalk applications for Horizon-messaging.

Using BizTalk to Integrate between .NET application (Horizon) and legacy systems (Mainframe). Connectivity and transformation of messages between ACV and their external partners (RVA, InterUI...)

Development of custom tools for monitoring and error handling. (C#/.NET)

Migration of BizTalk 2006 R2 environment to BizTalk 2010

Optimization and tweaking of the BizTalk environments to improve the overall performance

- Arcelor Mittal Logistics (10/2011-04/2012):

Consultancy, development and optimization of a BizTalk application used for routing and transformation of logistics documents between a backend system and the suppliers.

- Attentia (10/2009 - 05/2010):

BizTalk Consultancy

Development and optimization of the BizTalk 2006 R2/WCF application that connects the social secretariat backend system with the connected clients (Telenet, Volvo...)

Redesign of the BizTalk application to improve the overall performance.

## DSoft (Gent)
